Notice Regarding the Allotment of Subscription Rights to Shares (Stock Compensation-Type Stock Options)

Japan Tobacco Inc. (JT) announced today that it has resolved, at a meeting of its Board of Directors held today, to solicit subscribers for subscription rights to shares for its Directors (excluding Outside Directors) and Executive Officers (*sikkoyakuin*), pursuant to the provisions of Article 238 (1) and (2), and Article 240 (1) of the Companies Act, with the aim of further enhancing their motivation and morale for contributing to the improvement of corporate value, as follows.

JT will pay individuals to be allotted the subscription rights to shares monetary compensation equal to the amount to be paid in for corresponding subscription rights to shares to be allotted. (The amount to be paid in shall be the amount of option price per share as calculated in accordance with the formula provided in “11. Calculation Method of Amount to Be Paid In for Subscription Rights to Shares” below multiplied by the number of subscription rights to shares to be allotted.) Directors and Executive Officers to be allotted subscription rights to shares shall acquire same by offsetting their obligation to pay in the amount for the allotment with their monetary compensation claim to JT in lieu of paying said amount to be paid in at the time of allotment.

As JT split the stock at the ratio of 1:200 or 200 shares to one share effective July 1, 2012, the number of shares to be granted upon exercise of one subscription right to share was changed from one share to 200 shares effective from this allotment. Also, the number of shares to be granted upon exercise of one subscription right to shares regarding the subscription rights to shares issued before said stock split and outstanding as of July 1, 2012 was adjusted from one share to 200 shares.

1. Name of Subscription Rights to Shares:
Subscription Rights to Shares of Japan Tobacco Inc., 2012
2. Total Number of Subscription Rights to Shares:
729

The above total number is the planned number to be allotted. If the total number of subscription rights to shares to be allotted decreases, including the case where any subscription rights to shares have not been applied for subscription, the total number of subscription rights to shares to be issued shall be the same as the total number of subscription rights to shares to be allotted.

3. Class, Details and Number of Shares to Be Granted upon Exercise of Subscription Rights to Shares:
The class of shares to be granted upon exercise of subscription rights to shares shall be shares of JT's common stock (standard shares of JT with no rights restrictions whatsoever; the share unit number is

100 shares), and the number of shares to be granted upon exercise of one subscription right to shares (“Number of Granted Shares”) shall be 200 shares. If, however, after the date of allotment of the subscription rights to shares designated in 12 below (“Allotment Date”), the shares of JT’s common stock are subject to any stock split (including any gratis allotment of the shares of JT’s common stock; the same shall apply whenever “stock split” is mentioned hereinafter) or any stock consolidation, the Number of Granted Shares shall be adjusted using the following formula, and any amount less than one share resulting from the adjustment shall be calculated to the second decimal place and rounding the third decimal place down.

$$\text{Adjusted Number of Granted Shares} = \frac{\text{Number of Granted Shares before adjustment}}{\text{Stock split or consolidation ratio}}$$

The adjusted Number of Granted Shares shall become effective: (i) in the event of a stock split, on or after the day immediately following the record date of the corresponding stock split (if the record date is not decided, the effective date of the stock split is applied); or (ii) in the event of a stock consolidation, on or after the effective date of the stock consolidation; provided, however, in the event of a stock split to be conducted on the condition that the proposal for increasing the capital or reserves by decreasing the amount of surpluses be approved at the Annual General Meeting of Shareholders of JT, and if the record date of the stock split shall be any day prior to the conclusion day of the corresponding Annual General Meeting of Shareholders, the adjusted Number of Granted Shares shall apply retrospectively to the day immediately following such record date, on or after the day immediately following the conclusion day of the corresponding Annual General Meeting of Shareholders.

In addition to the above, in the event that, after the Allotment Date, it deems appropriate to adjust the Number of Granted Shares, the Number of Granted Shares shall be adjusted as deemed necessary.

Furthermore, when the Number of Granted Shares is adjusted, JT shall give notice to each person holding subscription rights to shares who is registered in the registry of the subscription rights to shares (“Subscription Right to Share Holder”), or make public announcement of necessary matters, no later than the day immediately prior to the day when the adjusted Number of Granted Shares shall become effective; provided, however, if no notice or public announcement can be made no later than the day immediately prior to such effective day, such notice or public announcement shall subsequently be promptly made.

4. Value of Assets to Be Contributed upon Exercise of Subscription Rights to Shares:

The value of the assets to be contributed upon the exercise of each subscription right to share shall be equal to the amount obtained by multiplying the amount to be paid in of ¥1 per share to be granted upon the exercise of the subscription right to share by the Number of Granted Shares.

5. Period During Which Subscription Rights to Shares May Be Exercised:

- (2) The amount of increase in capital reserve, in the event of the issuance of shares upon the exercise of subscription rights to shares, shall be the amount determined by deducting the amount of increase in capital or the like provided for in (1) above from the maximum increase in capital or

JT may acquire subscription rights to shares, if a proposal relating to (1), (2) or (3) defined below is approved at the Annual General Meeting of Shareholders of JT (or if the Board of Directors of JT resolves or the Representative Executive Officer (defined in the Companies Act) of JT decides to proceed with any of the foregoing proposals in the case where a resolution of the Annual General Meeting of Shareholders is not required), on the date separately determined by the Board of Directors of JT.

In the event stated above, JT shall, in exchange for acquiring each subscription right to share, grant to the Subscription Right to Share Holder the amount of money for each subscription right to share obtained by multiplying the value per share, which shall be calculated in accordance with the following formula, by the Number of Granted Shares (if the Number of Granted Shares is adjusted in accordance with 3 above, the adjusted Number of Granted Shares is applied).

Value per share = Closing price of the regular trading of the shares of JT's common stock on the Tokyo Stock Exchange at the day of approval for the proposal relating to (1), (2) or (3) defined below (or if the Board of Directors of JT resolves or the Representative Executive Officer (defined in the Companies Act) of JT decides to proceed with any of the foregoing proposals in the case where a resolution of the Annual General Meeting of Shareholders is not required) (Closing price shall be the basic price on the trading day immediately following that date, if there is no closing price on that date) – ¥1.

The time the Restructuring takes effect refers to the day when the absorption-type merger becomes effective regarding an absorption-type merger, the day when the new company is effectively incorporated by the merger regarding a consolidation-type merger, the day the absorption-type company split becomes effective regarding an absorption-type company split, the day when the new company is effectively incorporated by the company split regarding an incorporation-type company split, the day when the share-for-share exchange becomes effective regarding a share-for-share exchange, and the day when the wholly-owning company is incorporated by the stock transfer regarding a stock transfer; provided, however, that the foregoing shall be
